Abstract

The aim of this research is to explain how class supervisors who specialize in Pancasila and Citizenship Education (PPKn) can improve student learning discipline. As a class manager, Civics teachers can help students learn to be more disciplined. This research uses a descriptive approach with qualitative methods. In their role as class managers, Pancasila and Citizenship Education (PPKn) teachers strive to create orderly classes, enforce rules to maintain discipline in the class, by creating orderly classes, enforce rules to maintain discipline in the class. Discipline is essential to students' development if they are to learn and act in a way that is appropriate to the environment in which they find themselves. To instill discipline in students, teachers must have learning strategies that can support them during the teaching and learning process. Discipline in learning can be fostered through developing students' time management skills, a sense of ownership of assigned work, and accountability for lesson planning and classroom management. Teachers help students develop leadership qualities so they can develop self-confidence, teach them how to be responsible, and assist them in starting groups in class. Educate students to be independent in fulfilling their responsibilities democratically. democratically, acquainting students with independence in fulfilling their responsibilities, and acquainting them with the behavior necessary to be actively involved in class activities. and introduce students to appropriate behaviors to engage in active learning.

Keywords : Class Management, Citizenship, Learning Discipline

Introduction

Education is just a task can completed by humans. Field education covers all perspective and experience related humans with education . Constitution National Education System No. 20 of 2003 states that : "Education is business conscious and planned in realize atmosphere learning and the learning process for participants educate in a way active develop potency himself for own religious spiritual power, control self, personality, intelligence, morals glorious as well as necessary skills himself, society, nation and state". One of factors considered role important in form and prepare generation successor nation is education . Educational goals is for increase quality source power man in a way whole so that can operate his role in life with the best. With thus , education intended for help journey life man. According to Aryani & Susanti in journal (Novianti, et al, 2021) Pancasila and Citizenship Education Subjects is eye mandatory lessons for everyone level education in Indonesia. Pancasila and civic education is eye focused lessons for help student become citizens with character, intelligence and politeness with help they build diverse selves from religious aspect, background behind social culture, language, age, and ethnicity. Pancasila and Citizenship Education Teacher can help student behave more good with teach they about morality, ethics , and manners as well manage class during activity study teach. According to (Minsih, 2018) success Learning in class is largely determined by the teacher. Teacher activities inside class includes two things principal, that is teaching and managing class. For ensure that the learning process walk in accordance with expectations, management good class can help student in study in a way systematic and orderly. Citizenship Education Teacher

can help student develop behavior positive with educate they about values, ethics, etiquette , and discipline , as well become facilitator in activity class . Civics teacher need prepared for can increase awareness student to values, morals, skills life social. (Abdillah, 2018). Apart from making plan learning and teaching material, description the teacher's job is also a must covers provision source helpful power student in activity Study them and facilitate solution problem during the learning process. Besides that student will more orderly and capable critical (Gultom, 2020) activity study can facilitated with use instrument supporters, like facility education inside class, while study with behavior discipline. Management class need create atmosphere happy or fun in the environment school through management class , with intertwine familiarity between teacher- student, then the teacher can direct student with more easy for encourage and motivate Spirit Study student (Minsih, 2018). Someone who has discipline will obey laws and regulations based on deep knowledge. Discipline can interpreted as something encouraging thing for must do appropriate action with the rules that have been there is (Witri, 2020).

Result & Discussion

Class management

By etymology, word management That originate from English namely management, that is It means management similar with management. In terms of management that alone contained three meaning, that is thoughts , actions, and attitudes. Whereas in the dictionary great Indonesian management means lead, control, organize, and endeavor (Octavia S. , 2019, hal. 16). According to (Megawati, 2018, hal. 3)said management that alone have meaning: (1) Management as a process where implementation something specific goal implemented, organized and supervised or evaluation (2) Management as the collective of people who do it activity managerial in a particular body (3) Management as art and as knowledge. According to a number of definition given above , Management is art organizing , planning , directing , and managing in organization for reach goals that have been set through utilization source power and resources Power humans , according to a number of definitions listed above. Class is group of people working the same for finish tasks education below guidance a teacher. However , some another observer provided the term " class " has two interpretations. First, class is a specified space in which a number of big student gather for participate in the learning process teach. Second, class in a way general is a community that 's small dynamic arrange activity education for reach goals that have been determined based on definition management the class given above, management class is peak from all efforts made for create environment productive and enjoyable learning that inspires student for study as good as possible According to (Widiasworo, 2018, hal. 12) objective management class that is : (a) For make it happen situation and condition conducive class (b) For remove various possible obstacles obstruct realization interaction learning (c) Provide and organize facility as well as learning media that supports and enables participant educate Study in accordance with environment social , emotional , and intellectual they in the class (d) Coaching and guiding participant educate in accordance with background behind social culture and character the individual. The purpose of management class is for create supportive and conducive environment for learning , which makes it possible achieved objective learning. Achievement objective learning is also influenced by goals management class.

Pancasila and civic education

Civic education is form training individuals to support and strengthen political in his country, through out political that results from agreement (Zulfikar & Dewi, 2021). Educational goals citizenship is for develop student in that sense they empowered and civilized . Methods and results from education sort of This need possible student for expand perspective them and develop skills learn that will beneficial for future life them and the means for endure live in this country. Civic education is method designed teaching for grow moral readiness and capacity for produce work art a arresting original spirit of the country.

Discipline Study

Student must own discipline study for reach competence and knowledge they. A students who have strong understanding about discipline study can develop feeling responsible answer on mark learning. According to (Witri, 2020) discipline study student started from habits carried out, namely student capable use time with OK ,

have a sense of responsibility answer to assigned tasks and preparing a schedule learning. Even when they no is under parental guidance or teachers, students who practice leadership effective learning can do control self and responsible answer on action they. People who study discipline try for modify behavior they through information , experience, and knowledge as well as through related attitudes and actions with behavior. Discipline student during the learning process teach this is what's deep study this called as discipline (Akmaluddin, 2019). For finish task with success, space class use discipline for control behavior student . Temporary discipline clothes refers to behavior student when they follow the norms set by the school and wear uniform school, discipline time refers to how student behave for honor passing time. For example, come appropriate time. The role of the Citizenship and Pancasila Education teacher as class supervisor in increase discipline academic. Set rule internal behavior class help student study discipline. For example, prohibited cheat moment do tasks , speaking or make commotion when the teacher explains material, and is prohibited sleeping in class when the teacher is teach . Teachers do violation If student act with no way orderly moment they study. Pancasila and civic education give penalty form reprimand, give advice with wise, giving motivation study and of course always exemplify a good example to student for discipline (Perdana, 2020).

Conclusion

Researcher can interesting conclusion that with prepare room supportive class orderly learning, enforce rule class, and monitoring behavior students, Pancasila and Citizenship Education teachers play role important as manager class in increase discipline study student. With guard order inside class, enforce rule about behavior , and discipline students who don't follow rules, the teacher can in a way significant contribute to improvement discipline study student.
